

## Your Neighborhood Wilderness Program Registration

Hello,

The Environmental Science Center offers a complete **Your Neighborhood Wilderness program**, which includes a 1.5 hour classroom presentation and a 1.5 hour guided field study investigation.

### **Classroom Presentation & Field Study Investigation**

This program introduces students to their local backyard ecosystems. The 1 hour classroom presentation incorporates a PowerPoint presentation and scavenger hunt. The 1.5 hour field study will be performed at Seahurst Park's 169 acres of woodland trails.

*Teachers will choose from three possible focus areas:*

- 1: **"Who's Bugging You?"**- Terrestrial Invertebrate Identification (Grades K-2)
- 2: **"What's Under Your Feet?"**- Soil and Plants (Grades 2-5)
- 3: **"What's Above Your Head?"**- Birds and Biodiversity (Grades 6-12)

*All three focus areas can be offered as a classroom only session and can include exploration of the schoolyard for the field study component.*

**Grades: K-12**

You choose the topic that meets the needs of your grade level.

We often deliver this course at **Seahurst Park**.

**Cost:** \$50 for the 1 hour classroom presentation and \$150 for the 1.5 hour field study investigation. Total program cost is \$200 per class. If your school has 50 % or greater reduced or free lunch rate your course fee may be waived ([please request waiver](#)).

**Materials Cost:** If ESC delivers more than one program to a class in the school semester; then a \$25 materials fee will be charged per class for schools that qualify for Free ESC courses.

**Busing:** [You need to arrange and pay for transportation for this field trip](#)

**Chaperones:** During the field study, we would like students put into groups of 10-12 with two chaperones for each group.

Select a focus area and fill out the following registration form. Email to [programs@envsciencecenter.org](mailto:programs@envsciencecenter.org)  
Or mail to the address at the bottom of the page.
