

## **FIGHT INVASIVE SPECIES IN OUR LOCAL PARKS!**

**PLEASE JOIN THE ENVIRONMENTAL SCIENCE CENTER  
FOR OUR UPCOMING RESTORATION WORK PARTIES AT THE  
SALMON CREEK RAVINE AND SHOREWOOD PARK.**

**Shorewood Park – Saturday, February 11**

(11600-11798 28th Ave SW. Meet at the main entrance on 28th Ave SW)

**Salmon Creek Ravine – Saturday, March 10**

(12512-12516 Shorewood Dr SW. Meet at the entrance by the Sewer Treatment Plant)

One of the biggest problems facing parks all over the Northwest is invasive plant species. The worst offenders are Himalayan Blackberries, English Ivy, English Holly, and English Laurel. All of these spread rapidly and overwhelm native species.

**For questions contact: Jennifer Dumlao**

**Call (206) 248-4266 or email [outreach@envsciencecenter.org](mailto:outreach@envsciencecenter.org)**

**We start at 10:00am and end at 12:00pm**

Pruners, pruning saws, weed wrenches, and hand mattocks as well as rubber palmed work gloves are provided. Feel free to bring your own gloves and any similar tools of your own. Heavy leather gloves are recommended.

The Environmental Science Center promotes environmental stewardship, sustainability, and academic achievement through science based education. Serving South King County since 2000.

Adopt-A-Park work parties are supported by, King Conservation District, City of Burien, Shorewood on the Sound and the Environmental Science Center.
