

ESC is partnering with Stewardship Partners to install free rain gardens in Burien neighborhoods. Join us for a **FREE** workshop to learn more!

## Save the Sound: Build a Rain Garden

Tuesday March 15, 2011 from 6:00pm – 8:00pm  
Burien Community Center – Shorewood Room  
14700 6<sup>th</sup> Ave SW Burien WA 98166

At this workshop you will learn how rain gardens help soak up rainwater from downspouts, driveways, and sidewalks while protecting our local waterways. You will also learn your soil type during the class and receive a FREE rain garden manual and other helpful materials. There will be opportunities to gain further hands-on experience by helping create a rain garden later in the spring and fall.

Workshop is free, but seats are limited. Advanced registration is required.
