

Volunteer Application Form

ESC Mission & Background: The Environmental Science Center (ESC) promotes environmental stewardship and academic achievement through science-based education. Founded in 2000, ESC is a nonprofit organization offering quality, experiential environmental education programs at local beaches, streams, forests, and classrooms in south King County.

Volunteer Purpose Statement: ESC volunteers of all backgrounds and skill sets engage the public to support academic achievement and increase community awareness of environmental and sustainability issues. Volunteers contribute their time, skills, talents, and knowledge to promote the organization's mission, visibility and to share the experience of ESC's programs. Through this partnership, volunteers will grow as environmental stewards, and will gain the skills and behaviors necessary for engaging a socially responsible community.

*Please complete and return/email to ESC Community Engagement Manager Kharli Rose - Kharli@EnvScienceCenter.org.
Thank you for your interest in volunteering with the Environmental Science Center!*
