

Learn About Your Child's Recent Salmon Field Trip!

What did your child do?

1. In the classroom your child learned about the salmon lifecycle and what they need in their habitats.
2. Then your child visited a creek (virtually or in-person) to test water quality, dissect a salmon, and explore some of the native plants that provide shade and food for salmon.
3. Back in the classroom, your child analyzed the water quality data to see if the stream was healthy for salmon and other wildlife. They then brainstormed ways they can help salmon by improving their local habitats!

OFFICIAL SALMON HERO

- S - Save the trees
- T - Turn off the lights
- R - Ride your bike
- E - Every poop, you scoop
- A - All natural gardening
- M - Make sure only rain down the storm drain
- S - Share what you learned!!

Students take a pledge to become official Salmon Heroes. What can you do to stop stormwater pollution and help salmon?

Want to see salmon at a local river?

You and your child can spot salmon locally on many local rivers and streams every fall! Go to King County's website to learn more about Salmon SEE-son:

<http://bit.ly/salmonseason>

Your child's experience was made possible by the generous gifts of people just like you!

THE RUSSELL FAMILY FOUNDATION

Funding also comes from:

King County

Department of Natural Resources and Parks

Wastewater Treatment Division

Learning for the entire family!

Located at Seahurst Park in Burien, we not only offer classroom programs, but free family programs for all ages! Find out about our upcoming programs at
